Message of President

Prof. K.P. Singh

I am really happy to appreciate the efforts made by P.P.J. Saraswati Vihar to bring out "Prospectus" which truly unfolds the saga of success. It is crystal gazing that the school has trodden a long way from its inception until today. I congratulate the teachers, staff and the students who dedicated their priceless time and energy to make this possible. Education enables us to walk on the path of the great awakening of self which calls for a complete human formation. The concrete and specific mission of the Vidya Bharti is nothing else but aiming at the making of a complete human being. The integral formation occurs only when education makes a living encounter with the cultural inheritance. Systematic and critical assimilation of culture

plays a vital role in human formation. The school is a place where one seeks and discovers the absolute values in a life context and learns to insert them into a life framework with a cultural background, the culture becomes educational when a young mind relates whatever he learns from the real-life situations with which he is familiar. It helps one to make a positive human response to the cultural situations of life. I am extremely happy that the school has kept its vision so high in its march, showing everyone the light. Knowledge is the true light. Let the march continue towards this light. Let every effort of Saraswati Vihar, become part of this light.
